

Action Day – August 2nd 2014

Report by Robert Briggs

Our August working morning was warm and overcast and with 8 helpers we managed to work on a number of different tasks.

These included cutting the hedge in the main village car park, clearing litter from the surrounding common, cutting back an overgrown footpath on Wheeler End Common and removing the dead rose buds in the Harris garden.

We were very lucky with the weather as just as we were finishing off the hedge the heavy rain came.

Another good morning's work
