

Action Day – December 1st 2012

Report by Robert Briggs
Photographs by Pauline MacTavish

A crisp white frosty morning awaited our December working morning and with 11 willing helpers, (this included two mothers and their sons who have shown a recent interest in our group)

We split into two groups one group of 6 litter picked around the village and the other 5 worked on clearing and extending a drainage ditch that flowed alongside a footpath across Wheeler End Common.

This work should reduce the flooding on the middle part of the footpath after rain.
