

Action Day – February 5th 2011

Our February action day was very well attended by willing helpers and we managed to undertake a number of tasks.

The main group worked on cutting back and opening up the footpath that runs alongside Botany Brook which emerges into the high street. another group worked on removing some tree stumps in the Harris Garden as well as two groups litter picking around the ponds as well as around Ditchfield Common.

It was a grey day not one that you wanted to take a photo of.
