

Action Day – February 2nd 2013

Report by Robert Briggs
Photographs by Margaret Adnitt

After a very snowy, wet and windy week our February working morning was cold with clear blue skies.

With 16 willing helpers including a small group of our younger helpers we were able to work on a number of tasks.

These included cutting back the old vegetation in the Harris Garden, clearing away a fallen tree which was restricting a footpath and cutting away the old dead plants in the netted planted area around Foundry pond.

A general tidy and pruning around the Foundry Pond was also undertaken in preparation for the year ahead, we also removed large amount of litter from the surrounding commons and area around the village.
