

Action Day – January 4<sup>th</sup> 2014

Report by Robert Briggs

Our first meeting of 2014 was very wet under foot as well as a constant downpour of heavy rain.

However with 7 very keen helpers our morning's task was to clear and cut back an overgrown garden for a local resident who was house bound and enjoyed seeing the birds and wildlife in his garden.

After a few hours we managed to open up areas of the garden that had become overgrown enabling a much clearer view for the resident to see out.

We all left very wet but satisfied of our mornings work.
