

Action Day – June 2nd 2012

Report by Robert Briggs

Our Jubilee weekend morning started off a little wet but 12 willing helpers attended.

We divided into 4 small groups so that we could work on a number of tasks during the morning, these tasks included weeding the Harris Garden, litter picking around the village, strimming with power tools & cutting back overhanging hedges on a number of footpaths that had started to become overgrown.

A group of 20 walkers passed by when we were working on one footpath and thanked the working party for improving their journey.
