

Action Day – March 5th 2011

We had a good number of helpers for our March action morning and the weather was dry.

We managed to split into two groups, one small group worked in the Harris Garden removing the last of the ivy against the wall and preparing the ground near to the wall for replanting we also cut back the roses and gave the garden a general tidy.

The grass had also had its first cut of the year by the contractor.

The main group worked on footpath maintenance and litter picking on Cadmore End common.
