

Action Day – March 1st 2014

Report by Robert Briggs
Photographs by Pauline MacTavish

Our working morning on the 1st of March was warm, sunny and clear blue skies which was a great improvement from the very wet weather over the past two months.

With a small team of 7 we worked at cutting back and opening up the area around the seat that is situated along Four Fields footpath.

After admiring our work and taking in the views in the warm sunshine it was agreed that the location of the seat was ideal.

We also litter picked the area and areas around the village.
