

Action Day – May 5th 2012

Report & Photographs by Margaret Adnitt

We enjoyed a very good morning at Head and Body Pond where we started on the mammoth task of clearing brambles from around the pond. The small patch cleared was near the seat from where there is such a good view of the pond. There were only 6 of us but we achieved a considerable amount – there is still much to do on the south and eastern side of the pond – another day! We then adjourned to the village hall for a well earned coffee.
