

Action Day – November 2<sup>nd</sup> 2013

Report by Robert Briggs

Our November working morning was dry and overcast.

The morning's project was to tidy an overgrown garden area in the Lane End Primary School grounds. With 14 adults and 4 children we cut back overgrown trees and bushes, removed leaves and unwanted ground covering plants.

This work will let more light into the surrounding buildings and the lower garden area.

A few fallen trees were also cleared around the botany brook area.
